## **DETAILED ACTION**

### ***Response to Amendment***

This Office Action is in response to applicant's communication filed June 1, 2004 in response to PTO Office Action dated January 29, 2004. The applicant's remarks and amendment to the specification and/or claims were considered with the results that follow.

Claims 1-39 have been presented for examination in this application. In response to the last Office Action, claims 1, 9-25, and 30 have been amended. Claims 31-39 have been added.

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the reduce/reducing "an importance level of the line after the valid data is accessed while maintaining the line as a valid line" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet,

and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-39 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Independent claims 1, 9, 17, 30, and 36 recite "reducing an importance level of the line after the valid data is accessed while maintaining the line as a valid line", while independent claim 25 recites "reduce an importance level of the line after the valid data is accessed while maintaining the line as a valid line". The Examiner is unclear as to

the meaning of this claim limitation, and the Specification fails to recite or support such a limitation. Applicant is encouraged to amend the claim in order to facilitate proper antecedent basis and support in accordance with the Specification.

Claims 2-8, 10-16, 18-29, 31-35, and 37-39 are rejected as being dependent upon a previously rejected claim.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-39 have been considered but are moot in view of the new ground(s) of rejection. Applicant has argued on page 6, paragraph 1, that Figure 3 supports the amendments to the independent claims. After careful examination, the Examiner is unclear as to how Figure 3 and the Specification support the amendments as claimed.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
